To
The Hon'ble Minister of Railways
Government of India
New Delhi

Subject: Humble Request for Establishment of a Railway Station in 179-Shyampur Assembly Constituency, Howrah, West Bengal

Hon'ble Sir,
Pranam!

I am writing to you with a humble and earnest request on behalf of the people of 179-Shyampur **Assembly Constituency, Howrah, West Bengal.**

India attained Independence nearly eight decades ago. However, it is a matter of deep concern that even **after 79 years of Independence, Shyampur Assembly Constituency still does not have a single railway station, nor has any direct railway service reached the people of Shyampur.**

The people of Shyampur have been deprived of the immense benefits that railway connectivity can bring to a region. Students, farmers, workers, small entrepreneurs, traders, employees, senior citizens and patients have to depend on road transport and travel considerable distances to access railway services.

Shyampur has tremendous potential for development in agriculture, education, healthcare, industry, trade, tourism and employment. A railway station in Shyampur would not merely improve transportation—it would become a catalyst for economic growth, employment generation and overall development of the region.

Therefore, on behalf of the people of Shyampur, I most respectfully request your good office to kindly consider conducting a feasibility study and initiating the necessary preliminary survey and planning for establishment of a railway station within **179-Shyampur Assembly Constituency.**

Hon'ble Sir, if, after 79 years of Independence, a railway station is finally established in Shyampur through your kind intervention, it would be nothing less than a historic gift to the people of Shyampur. It would fulfil a long-cherished dream of generations and create a lasting legacy of development for the constituency.

I sincerely believe that under your able leadership and with your kind blessings and intervention, this long-standing aspiration of the people of Shyampur can become a reality.

I therefore earnestly appeal to you to kindly extend your support and guidance towards bringing railway connectivity to Shyampur.

The people of Shyampur will remain eternally grateful to you for this historic initiative.

With profound respect, gratitude and Pranam,
Yours sincerely,

Dr. Hiranmoy Chattopadhyaya
